

Mid-Atlantic Collaborative Care Generates \$15.4 Million in Total Savings for the Medicare Shared Savings Program

TAMPA, Fla., FAIRFAX, Va., ROCKVILLE, Md. and BALTIMORE (Oct. 14, 2019) – Collaborative Health Systems, a WellCare Health Plans, Inc. (NYSE: WCG) company, announced today the more than 170 providers in Mid-Atlantic Collaborative Care generated \$15.4 million in total savings for the Medicare Shared Savings Program (MSSP) for performance years 2017 and 2018, according to figures released by the Centers for Medicare & Medicaid Services. During the two performance years, the ACO earned \$7.1 million in shared savings.

This marks the second consecutive year Mid-Atlantic Collaborative Care, a Medicare Accountable Care Organization (ACO) formed in 2017, achieved both total savings to Medicare and shared savings. In performance year 2018, Mid-Atlantic Collaborative Care served more than 15,700 Fee-For-Service Medicare beneficiaries and generated \$10.4 million in total savings for Medicare – more than double the savings of performance year 2017 – and \$4.7 million in shared savings for the ACO. Providers in the ACO also achieved an overall quality score of 93%.

“Mid-Atlantic Collaborative Care is demonstrating how physicians can thrive and retain their independence by embracing value-based care that increases accountability, lowers costs and improves quality,” said Anthony Valdés, president of Collaborative Health Systems. “We look forward to our continued partnership as we work with providers to deepen patient relationships, advance care in our local communities and improve health outcomes.”

Medicare ACOs are groups of doctors, hospitals and other healthcare providers who come together voluntarily to provide coordinated high-quality care to their Medicare beneficiaries, while avoiding unnecessary duplication of services and preventing medical errors. When an ACO exceeds quality and financial thresholds – demonstrating achievement of high-quality care and wiser spending of healthcare dollars – it is able to share in the savings generated for Medicare.
